Re: Request for Information Pursuant to  
Section 104 of CERCLA and Section 3007 of RCRA  
for the Artel Chemical Site, Nietro, West  
Virginia

Dear Mr. Collins:

In accordance with our conversation this afternoon, this will confirm that Halliburton Services has been extended additional time within which to collect and review documents in order to respond to EPA's letter dated April 20, 1989 concerning the captioned chemical site. Thank you for agreeing to furnish additional information concerning EMI-24 and X-600, along with information concerning locations to which various chemicals were delivered, to Ron Bechtel at Halliburton during my absence next week. As we discussed today, other correspondence in connection with this matter should routinely be sent to me as counsel for Halliburton Services, rather than to Halliburton Services directly.

Very truly yours,

VINSON & ELKINS

Ann MacNaughton Turner
